**Buy** Bitcoin.  
**Deploy** Bitcoin.  
**Earn** Bitcoin.

LQWD transforms its Bitcoin treasury from a static reserve into productive, lightning-enabled treasury asset that generates yield while supporting the global payments network.

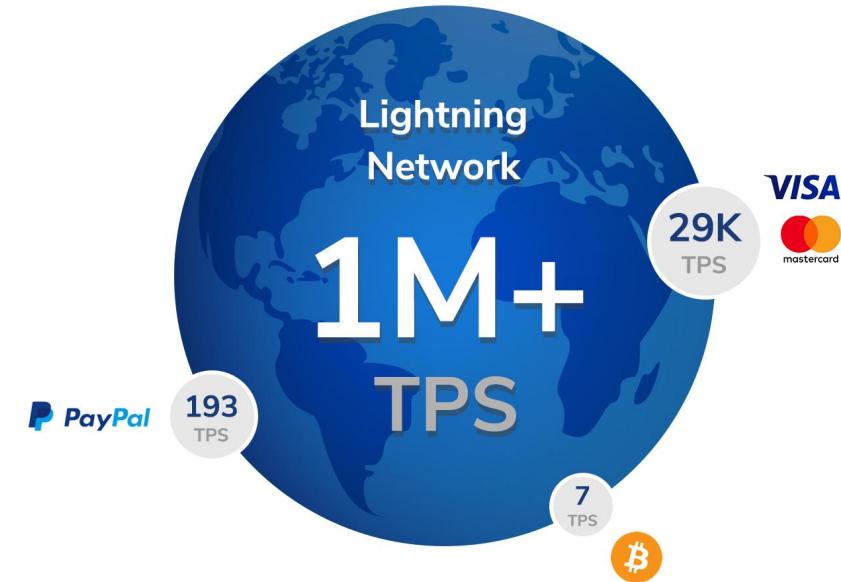

# The Lightning Network

Lightning is its payment layer of the internet, open, global, and operating at scale. It's capable of supporting millions of transactions per second.

## 2025 LIGHTNING NETWORK HIGHLIGHTS

- Lightning Network public capacity reaching a new all-time high, approaching ~US\$500M
- Tether co-led a US\$8M Lightning infrastructure investment, expanding stablecoin rails
- Real-world adoption accelerated across global payments and commercial use cases

Transactions Per Second

# Global Lightning Infrastructure

LQWD's Lightning infrastructure spans globally and is purpose-built to capture transaction fees as Lightning payment volume scale worldwide.

# Powering the Payment Layer of the Internet

LQWD operates enterprise-grade Lightning nodes, optimized for high-frequency transaction routing. AI-driven channel rebalancing and peer selection are used to minimize hops, improve reliability, and route transactions quickly and efficiently.

Automated channel opening using machine learning models

Top peers based on extensive data analysis

Custom criteria for opening channels in specific regions

AI-recommended fees for transaction forwarding

**LQWD transactions are growing rapidly, routing over 2,317 BTC and over 2,233,000 transactions to date.**

# Highly Scalable Revenue Model

As Lightning Network usage grows, liquidity and routing fees are also anticipated to scale and increase alongside the growth of the network.

Potential Transaction Revenue examples of adoption and increasing fees in \$US

# A Rapidly Expanding Network

In 2025, Lightning adoption expanded across major consumer and financial platforms:

- Square enabled approximately four million merchants to accept Bitcoin
- Cash App expanded Lightning usage for peer-to-peer payments and withdrawals
- About 15% of Bitcoin withdrawals on Coinbase were processed via Lightning

# The Bitcoin Lightning Treasury

LQWD grows satoshis per share by combining disciplined Bitcoin acquisitions with active deployment on the Lightning Network.

# Project YiS – Yield in Sats

- Delivered ~8.9% weighted APR yield over the test period.
- Yield measured using time-weighted APR, LQWD's preferred metric for portfolio run-rate performance.
- Early test results showcase LQWD's model strength even over a short window.
- Initiative marks the testing phase of a new Lightning deployment strategy; yields expected to stabilize and improve with scaling capital and time.
- LQWD's global Lightning infrastructure enhances routing reach, efficiency, and yield.

## **IMPORTANT: Cautionary Note Regarding Forward-Looking Information**

This presentation contains forward-looking information based on current expectations. Statements about LQWD Technologies Corp. and its expected outcomes, plans and benefits, price of bitcoin and other cryptocurrencies, plans and intentions, other potential transactions, acquisition of customers, product development, events, courses of action, and the potential of the LQWD Technologies Corp.'s operations, among others, are all forward-looking information ("forward-looking statements"). Forward-looking statements consist of statements that are not purely historical, including any statements regarding beliefs, plans, expectations or intentions regarding the future. Such information can generally be identified by the use of forward-looking wording such as "may", "expect", "estimate", "anticipate", "intend", "believe" and "continue" or the negative thereof or similar variations. The reader is cautioned that assumptions used in the preparation of any forward-looking information may prove to be incorrect. Events or circumstances may cause actual results to differ materially from those predicted, as a result of numerous known and unknown risks, uncertainties, and other factors, many of which are beyond the control of LQWD Technologies Corp., including but not limited to, business, economic and capital market conditions; the ability to manage operating expenses, which may adversely affect LQWD Technologies Corp.'s financial condition; the ability to remain competitive as other better financed competitors develop and release competitive products; regulatory uncertainties; access to equipment; market conditions and the demand and pricing for products; the demand and pricing of bitcoin and other cryptocurrencies; security threats, including a loss/theft of LQWD Technologies Corp.'s cryptocurrencies; LQWD Technologies Corp.'s relationships with its customers, distributors and business partners; the ability to attract, retain and motivate qualified personnel; competition in the industry; the impact of technology changes on the products and industry; failure to develop new and innovative products; the ability to successfully maintain and enforce our intellectual property rights and defend third-party claims of infringement of their intellectual property rights; the impact of intellectual property litigation that could materially and adversely affect the business; the ability to manage working capital; and the dependence on key personnel. LQWD Technologies Corp. may not actually achieve its plans, projections, or expectations. Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which LQWD Technologies Corp. will operate.

### **IMPORTANT: Cautionary Note Regarding Forward-Looking Information**

in the future, including the demand for its products, the ability to successfully develop software, that there will be no regulation or law that will prevent LQWD Technologies Corp. from operating its business, anticipated costs, the ability to secure sufficient capital to complete its business plans, the ability to achieve goals and the price of bitcoin. Given these risks, uncertainties and assumptions, you should not place undue reliance on these forward-looking statements.

The securities of LQWD Technologies Corp. are considered highly speculative due to the nature of LQWD Technologies Corp.'s business.

Factors that could cause actual results to differ materially from those in forward-looking statements include, failure to obtain regulatory approval, the continued availability of capital and financing, equipment failures, failure to obtain any permits required to operate the business, the impact of technology changes on the industry, competition, security threats including stolen bitcoins or other cryptocurrencies from LQWD Technologies Corp., consumer sentiment towards blockchain technology generally, decrease in the price of Bitcoin and other cryptocurrencies, failure to develop new and innovative products, litigation, increase in operating costs, increase in equipment and labor costs, failure of counterparties to perform their contractual obligations, government regulations, loss of key employees and consultants, and general economic, market or business conditions. Forward-looking statements contained in this presentation are expressly qualified by this cautionary statement. The reader is cautioned not to place undue reliance on any forward-looking information. The forward-looking statements contained in this presentation are made as of the date of this presentation. Except as required by law, LQWD Technologies Corp. disclaims any intention and assumes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Additionally, LQWD Technologies Corp. undertakes no obligation to comment on the expectations of, or statements made by third parties in respect of the matters discussed above.
